### *The word is out!*

Godly Play<sup>®</sup> is a dynamic, Quaker-friendly approach to religious education and the Bible that is open-ended and that honors the spiritual lives of children. The program offers consistency, meaningful engagement and rich pay-off to both teachers and children. Plus, while designed for children ages 3 to 12, it can be used effectively in multigenerational settings and even in all-adult groups.

### *Its Quaker supplement, Faith & Play<sup>™</sup> . . .*

. . . provides a grounded, interactive way to explore Quaker Faith & Practice with amazing depth. These Montessori-inspired approaches require considerable training, and here is your opportunity!
