

CHFM Library Committee Annual Report
February 2018

Over the past year, Library Committee members have focused on keeping the Gathering Room tidy and the collection on the shelves in good order. Some members have continued to add more books into the online catalogue that is available through the meeting's website, including a shipment gifted by the book review department at Friends Journal. We have also considered several requests for donations to the collection, and accepted them when possible. One very special addition is a book in German which includes a description of our skyspace. Phil Jones arranged for Claudia Vesterby to translate the pages in the book which has the entry about the Turrell installation. While committee members have many ideas for events and activities related to books and our collection specifically, two members (Roger Walmsley and Jocelyn Anthony) have stepped away from their involvement, so we have curbed our appetite for the time being.
