

2017-97: Minute on Examination of Complicity in Nuclear Weapons Industry

Friends approved the following minute:

Northampton Friends Meeting strongly reaffirms its October 2017 minute (2017-78) in support of the 2017 United Nations Treaty on the Prohibition of Nuclear Weapons, and asserts its intention to examine the ways in which it is complicit in the nuclear weapons industry, including the funding of those activities through our investments, purchases, or other business transactions, and to plan for ways to eliminate or reduce that complicity in order to be compliant with the treaty.
