Quaker youth programming creates a strong spiritual community in a short period of time. To help adults planning the program best prepare for your child's group experience, please take a moment to describe your child to us.

PLEASE NOTE: Children must be under adult supervision at all times. Any time when there is no scheduled children's/middle school program, including meals, multigenerational programs, and overnight, children must be in the care of a designated responsible adult. We encourage families to share in the care of their children, taking turns supervising kids to allow the children to play and the adults to have their own time!
